Start investing in yourself today, with help from the University System of Maryland Supplemental 457(b) Plan and Fidelity.
Invest some of what you earn today for what you plan to accomplish tomorrow.

Your employer offers outstanding convenience and a variety of investment options. Take a look and see what a difference enrolling in the plan could make in achieving your goals.

Benefit from:

**Convenience.** Your contributions are automatically deducted regularly from your paycheck.

**Tax savings now.** Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you may actually lower the amount of current income taxes withheld each period. It could mean more money in your take-home pay versus saving money in a taxable account.

**Tax-deferred savings opportunities.** You pay no taxes on any earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

**Catch-up contributions.** If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional "catch-up" contribution of $5,500 in 2009.

**Investment options.** You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio.

**Portability.** You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

To learn more about what your plan offers, see "Frequently asked questions about your plan" later in this guide.

Sincerely,

University System of Maryland

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?
There is no waiting period. You can enroll in the Plan at any time.

How do I enroll in the Plan?
- The first step will be selecting a vendor. Upon selecting the University System of Maryland Supplemental 457(b) Plan, please contact your institution’s Benefits Office to complete the required paperwork to select your vendor of choice. Once you have completed the paperwork making your vendor selection, if you have selected Fidelity Investments, the Benefits Office will notify Fidelity to set up your account.
- Once your account has been established and you see your contribution to Fidelity on your first paycheck, use the Fidelity website to access your account and set up your personal identification number (PIN). Simply log on to https://www.mysavingsawork.com/atwork/umd.htm, which will direct you to Fidelity NetBenefits® or you can call the Fidelity Retirement Representatives at 1-800-343-0860. When you first contact Fidelity, you will need to set up a personal identification number (PIN). If you are already a Fidelity customer, then you may use your existing PIN. And then you’ll be able to make your investment elections.
- The next step is to review your plan’s investment options, see how they align with your investment approach, and make your investment elections. Your University System of Maryland Supplemental 457(b) Plan offers a variety of investment options.

When is my enrollment effective?
Your enrollment becomes effective once you elect a dollar amount, which initiates deduction of your contributions from your pay. These salary deductions will generally begin with your next pay period after we receive your enrollment information, or as soon as administratively possible.

How do I designate my beneficiary?
Simply complete the enclosed Beneficiary Designation Form and return it to Fidelity Investments in the postage paid envelope. Please make two copies of the form; one is for your records and the other should be forwarded to your institution’s Benefits Office.

How much can I contribute?
Through automatic payroll deduction, you may contribute as much or as little as you want of your eligible pay on a pretax basis, up to the annual IRS dollar limits. Employees determined to be highly compensated may have additional limitations.

What are the IRS contribution limits?
If you are under age 50, the IRS contribution limit is $16,500 for 2009. If you will be at least age 50 during the year, your plan may allow you to defer an additional $5,500 as catch-up contributions.

What are my investment options?
To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan’s investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online at Fidelity NetBenefits®.

The Plan also offers the Fidelity Freedom Funds® that offer a blend of stocks, bonds and short-term investments within a single fund. Each Freedom Fund’s asset allocation is based on the number of years until the fund’s target retirement date. The Freedom Funds are designed for investors who want a simple approach to investing for retirement. Lifecycle funds are designed for investors expecting to retire around the year indicated in each fund’s name. It is important to keep in mind that the lifecycle funds are designed to become more conservative as they approach their target retirement date.
date. However, like all the plan’s investment options, they involve risk. Unless a plan investment option specifically states otherwise, principal is not guaranteed at any time and it is possible to lose money at any time, including near and after your retirement.

**What if I don’t make an investment election?**

We encourage you to take an active role in the University System of Maryland Supplemental 457(b) Plan and choose investment options that best suits your goals, time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the Fidelity Freedom Fund with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of the Plan Sponsor. Please refer to the chart in the Investment Options section for more detail. If no date of birth or an invalid date of birth is on file at Fidelity your contributions may be invested in the Fidelity Freedom Income Fund®. For more information about the Fidelity Freedom Fund options, log into www.fidelity.com/atwork. Lifecycle funds are designed for investors expecting to retire around the year indicated in each fund’s name. It is important to keep in mind that the lifecycle funds are designed to become more conservative as they near their target retirement date. However, like all the plan’s investment options, they involve risk. Unless a plan investment option specifically states otherwise, principal is not guaranteed at any time and it is possible to lose money at any time, including near and after your retirement.

**What "catch-up" contribution can I make?**

If you have reached age 50 or will reach 50 during the calendar year January 1 - December 31 and are making the maximum plan or IRS pretax contribution, you may make an additional "catch-up" contribution each pay period. The maximum annual catchup contribution is $5,500. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in $500 increments. You make catch-up contributions through payroll deduction, the same way you make regular contributions.

**When am I vested?**

You are always 100% vested in all contributions to the University System of Maryland Supplemental 457(b) Plan.

**Can I take a loan from my account?**

Although your plan account is intended for the future, you may borrow from your account for any reason. Generally, the University System of Maryland Supplemental 457 (b) Plan allows you to borrow up to 50% of your vested account balance. The minimum loan amount is $1,000, and a loan must not exceed $50,000. You then pay the money back into your account, plus interest, through automatic deductions that you will set up from either a checking or a savings account. Any outstanding loan balances over the previous 12 months may reduce the amount you have available to borrow. You may have one loan outstanding at a time. The cost to initiate a loan is $35.00, and there is a quarterly maintenance fee of $3.75. The initiation and maintenance fees will be deducted directly from your individual plan account. Be sure you understand the Plan guidelines before you initiate a loan from your plan account.

**Can I make withdrawals from my account?**

Withdrawals from the Plan are generally permitted when you terminate your employment, attain age 70½, have a unforeseeable emergency or the Plan is terminated. Keep in mind that withdrawals are subject to income taxes and possibly to early withdrawal penalties. If you are under age 59½, the taxable portion of your withdrawal is also subject to a 10% early withdrawal penalty, unless you qualify for an exception to this rule. Any assets distributed from your governmental 457(b) plan will be taxed as ordinary income in the year withdrawn; if you are under age 59½ at the time of the distribution, a 10% early withdrawal penalty may apply to any amounts which were rolled into the plan from an IRA or a plan other than another governmental 457(b) plan. If the distribution is eligible to be rolled over, but is not directly rolled over to an eligible plan or IRA, 20% mandatory withholding of federal income tax applies. Federal income tax will not be withheld if an eligible plan-to-plan transfer is made to another employer’s 457(b) plan that accepts the transfer. Be sure you understand the federal and state tax consequences of any distribution before you initiate one. You may want to consult your tax advisor about your situation.

**Can I move money from another retirement plan into my account in the University System**
of Maryland Supplemental 457(b) Plan?
You are permitted to roll over eligible pretax contributions from another 401(k) plan, 401(a) plan, 403(b) plan or a governmental 457(b) retirement plan account or eligible pretax contributions from conduit Individual Retirement Accounts (rollover IRAs) and certain non-conduit individual retirement accounts (traditional IRAs, Simplified Employee Pension plans, and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA). A conduit IRA is one that contains only money rolled over from an employer-sponsored retirement plan that has not been mixed with regular IRA contributions. Contact your HR Services Benefits department for details. You should consult your tax adviser and carefully consider the impact of making a rollover contribution to your employer's plan because it could affect your eligibility for future special tax treatments.

How do I access my account?
You can access your account online through Fidelity NetBenefits® at www.fidelity.com/atwork or call the Fidelity Retirement Service Representatives at 1-800-343-0860 to speak with a representative or use the automated voice response system, virtually 24 hours, 7 days a week.

Where can I find information about exchanges and other plan features?
You can find information about your account and learn about exchanges, withdrawals and more, online through Fidelity NetBenefits® at www.fidelity.com/atwork. In particular, you can access a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. You can also obtain more information about exchanges, withdrawals, and other plan features, by calling the Fidelity Retirement Service Representatives at 1-800-343-0860 to speak with a representative or use the automated voice response system, virtually 24 hours, 7 days a week.

How do I obtain additional investment option and account information?
Your Employer has appointed Fidelity to provide additional information on the investment options available through the Plan. Also, a statement of your account may be requested by phone at 1-800-343-0860 or reviewed online at Fidelity NetBenefits®.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity’s analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options’ Morningstar categories as of 07/31/2009. Morningstar categories are based on a fund’s style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options’ objectives and do not predict the investment options’ future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.
LifeCycle Funds

The lifecycle investment options are represented on a separate spectrum because each investment option (except the income fund, if applicable) will gradually adjust its asset allocation to be more conservative as the investment option approaches and moves beyond its target retirement dates. Generally, those investment options with later target retirement dates have greater equity exposure and more risk than those with earlier target retirement dates.

The chart below illustrates the plan-assigned fund the University System of Maryland Supplemental 457(b) Plan believes will best fit your diversification needs should you not select an investment option.

MONEY MARKET

Fidelity Cash Reserves
Fund code: 00055
What it is: A money market mutual fund.
Goal: Seeks to provide as high a level of current income as is consistent with the preservation of capital and liquidity.
What it invests in: Primarily invests in U.S. dollar-denominated money market securities, including U.S. Government securities, and repurchase agreements, and enters into reverse repurchase agreements. The fund invests more than 25% of its assets in the financial services industry. An investment in this portfolio is not guaranteed or insured by the FDIC or any other government agency. Although this money market fund seeks to preserve the value of your investment at $1 per share, it is possible to lose money by investing in this fund. Yield will vary.
Who might want to invest:
• Someone who may need to use this portion of his or her money soon (for retirement income, for example), and who is looking for the value of his or her investment to stay stable.
• Someone with an aggressive portfolio who wants to help balance his or her overall investment strategy.

BOND

Fidelity U.S. Bond Index Fund
Fund code: 00651
What it is: An income mutual fund.
Goal: Seeks to provide investment results that correspond to the total return of the bonds in the Barclays Capital U.S. Aggregate Bond Index.

In general, bond prices rise when interest rates fall, and vice versa. This effect is usually more pronounced for longer-term securities. Share price and return will vary.
Who might want to invest:
• Someone who hopes to match the performance of the overall bond market as measured by the Barclays Capital U.S. Aggregate Bond Index.
• Investors who are looking for a higher return than a money market fund, and who are willing to accept the greater investment risk of bonds of companies and government agencies.
The Barclays Capital U.S. Aggregate Bond Index is an unmanaged market value-weighted index of investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities, with maturities of one year or more.

Fund code: 00304

Lower-quality debt securities involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. The fund will invest at least 25% of its assets in fixed income senior securities (including debt securities and preferred stocks). The fund may invest in securities of domestic and foreign issuers. Share price and return will vary.
Who might want to invest:
- Someone who wants to invest in a fund that selects both stocks and bonds.

What they are: The Fidelity Freedom Funds are investment options that allow the investor to select the fund that best matches his or her expected retirement year. The Fidelity Freedom Funds invest in a diversified portfolio of other Fidelity mutual funds to provide moderate asset allocation. They are designed for investors who want a simple yet diversified approach to investing for their retirement. The allocation strategy for the underlying equity, fixed-income, and short-term mutual funds is based on the number of years until the Freedom funds reach their target retirement dates. Each Freedom fund with a target retirement date will gradually adopt a more conservative asset allocation as it approaches its target retirement date. Therefore, each fund’s target asset allocation percentages will change over time to become more conservative, by gradually reducing allocations to equity funds and increasing allocations to fixed-income and short-term funds. The Fidelity Freedom Income Fund®, designed for those already in retirement, emphasizes fixed-income and short-term mutual funds and seeks to maintain a stable asset allocation from year to year.

Goal: The Fidelity Freedom Funds with target retirement dates seek to provide high total returns until the target retirement date. Thereafter, each fund’s goal will be to seek high current income and, as a secondary objective, capital appreciation. The Freedom Income Fund seeks high current income and, secondarily, capital appreciation.

What they invest in: Each Freedom fund invests in a diversified portfolio of Fidelity equity, fixed-income, and short-term mutual funds. Fidelity Freedom 2050 Fund®, with the longest time horizon, invests primarily in equity mutual funds to take advantage of potentially greater growth opportunities. The asset mix of each Freedom fund with a target retirement date (Fidelity Freedom Income Fund®, Fidelity Freedom 2000 Fund®, Fidelity Freedom 2005 Fund®, Fidelity Freedom 2010 Fund®, Fidelity Freedom 2015 Fund®, Fidelity Freedom 2020 Fund®, Fidelity Freedom 2025 Fund®, Fidelity Freedom 2030 Fund®, Fidelity Freedom 2035 Fund®, Fidelity Freedom 2040 Fund®, Fidelity Freedom 2045 Fund®, Fidelity Freedom 2050 Fund®) will gradually become more conservative over time so investors can stay with the same fund before and during retirement. After reaching the target retirement date, these Freedom funds continue to be managed more conservatively for 10 to 15 more years until their asset mix is approximately the same as Freedom Income Fund. Ultimately, after notifying the funds’ investors, the funds will merge into the Freedom Income Fund. The Freedom Income Fund, designed for those already retired, is invested more conservatively, with a larger percentage in fixed-income and short-term funds and has a smaller percentage of equity mutual funds. The funds’ manager must invest in the group of underlying funds named in the prospectus, and will aim for the projected target asset allocation percentages announced to investors in the funds’ annual and semiannual reports. Freedom funds with target retirement dates may invest in domestic and foreign equity funds, high yield and investment grade fixed-income funds, and short-term funds. The Freedom Income Fund invests in domestic equity funds, investment grade fixed-income funds, high yield bond funds and short-term funds. These funds are subject to the volatility of the financial markets in the U.S. and abroad and may be subject to the additional risk associated with investing in high yield, small cap, and foreign securities. Share price and return of each Freedom fund will vary.
