Information Technology Coordinating Council
September 14, 2012
UMBC Tech Center
Meeting Minutes

Meeting Called By: Donald Spicer and Suresh Balakrishnan
Minutes By: Megan Wilson

MINUTES

Agenda Item: ERP Directions/Oracle Relations

Discussions:
A group of USM CIOs and CFOs are working on the best way to move forward with Oracle. An attorney will be needed to look at contracts, and the group is working with Bob Page to satisfy the needs of the AG’s office. Some institutions are interested in establishing an RFP that would allow a more cafeteria style bidding process.

Stan will send out an inventory sheet requesting updates of software versions, and what they plan to not implement over the long-haul. He will send out the update once all institutions have responded.

Agenda Item: Updates

Discussion:
The USM is mostly finished with electronic transcripts issue; however we need a process to capture student SASID. Each institution will develop a statistical matching process, which looks at parameters on student records going back to 2007. Don will send an update on which institutions haven’t updated.

As part of a rewrite in the State Plan for Higher Education MHEC has a section on innovation and education delivery. Don will serve on the writing team with Nancy Shapiro; there is an opportunity for one other person from System. If someone on campus is interested let Don know.

Innovation is in the USM’s 10 year strategic plan. In the last 9 months the issue of innovation in our academic programs, and how we engage faculty and students has become more prominent.
Some USM Presidents are interested in cloud computing. Therefore, Don will ask some of the CIOs to be on a panel for discussion on cloud computing.

Dell has proposed to hold an Executive briefing in Texas if there is sufficient interest from USM CIOs. There will be no cost to attend; only cost for travel. Dell would need 45-60 days to organize retreat; let Suresh know if you are interested.

**Agenda Item:** MEEC Hardware Procurement Update

**Discussion:** Coppin is working on the lecture capture contracts.

MEEC is looking at a possible AV agreement, if campuses are interested. Tamara will be soliciting for an RFP team. Stan will be the point person on AV agreement.

**Agenda Item:** Kuali Implementation Update at UMCP

**Discussion:** UMCP has implemented Kuali at their campus, and discussed the implications with the group. Overall, UMCP feels the transition to Kuali has been smooth, and the results are impressive.
Attendees

Suresh Balakrishnan, USM
Ahmed El-Haggan, CSU
Dave Bobart, UB
Stan Jakubik, USM
Ken Kundell, SU
Jeff Schmidt, Towson
Don Spicer, USM
Joe Kirby, UMBC
Phil Taylor, UMES
Marivic Weiss, BSU
Megan Wilson, USM
Pete Young, UMUC
Michael Brown, UMCP
Bruce Lehman, FSU
